

Mayco Pipewash OB™

Mayco Pipewash OB is a proprietary surfactant cleaner for use in displacement of synthetic base mud and oil base mud. **Mayco Pipewash OB** is a blend of solvents and surfactants designed to loosen and disperse mud residue from the well bore, casing, and tubing surfaces.

APPLICATION

Mayco Pipewash OB is recommended for use during mud displacement procedures as an additive to the surfactant spacer. It is excellent in removing water based muds, synthetic based oil muds and oil based muds from the casing annulus, blowout preventers, boost, choke and kill lines, marine riser, surface equipment, and **work string** surfaces. Use up to 20% by volume in fresh water or various brines.

TECHNICAL FEATURES AND ADVANTAGES

- Compatible with any density clear brine fluid
- Easily adjusted to meet specific hydraulic requirements
- No solvents or priority pollutants are present in this transition spacer (excluding any zinc bromide ZnBr₂ blends)
- May be discharged overboard after passing a static sheen test (subject to local regulations)

TYPICAL PHYSICAL AND CHEMICAL PROPERTIES

Appearance Clear with mild odor

Physical State Liquid

Boiling Point >220°F (104.4°C)

Specific Gravity 1.025

Solubility Soluble with water in all proportions

Incompatibility Incompatible with oxidizing agents

PACKAGING

5 gallon containers

55 gallon drums

Bulk liquid tanks

SAFETY AND HANDLING

Avoid skin and eye contact, inhalation or ingestion. If exposed, wash skin with soap and water, flush eyes with water and seek medical assistance. If ingested, seek medical assistance. Remove contaminated clothing and wash before reusing. Have adequate ventilation or use proper respirator. Wear protective face shield. Dispose of according to applicable regulations. Consult MSDS prior to use.
